Janice,

Can you please send me the original attachment with the summaries you put together?

Thanks!  
Mindy

Hi Mindy and Bob,

Thanks for your help on this. Feel free to call if you have questions. Perhaps we can target the week of March 5-9 as a potential time to hold these meetings. Right now we are available pretty much anytime that week except for Wednesday March 7.

Janice

Janice,  
I am out of the office (unexpectedly) for the rest of this week.  
Mindy Kairis remains the overall job point of contact as well as the POC for OGC.  
Due to the complexity of this job it is challenging to get players lined up across multiple program offices compared across the various law offices within our OGC.  
While I'm out Bob Trent will be helping Mindy work with our liaisons and the technical POCs from the program office to line up the right people.  
Thanks,  
Mark

Subject: Meeting(s) regarding CERCLA, EPCRA, TSCA (361347)

Hi Mark,

Following up on my voicemail from yesterday. We've prepared the attached summary of several laws (CERCLA, EPCRA, and TSCA) and tried to determine how these laws relate to oil and gas development, particularly the drilling of and production at oil and gas wells (not refineries or compressor stations or other facilities). Embedded in the document are questions that we would like to discuss with the appropriate EPA officials. As such, we would like to hold a meeting (or meetings) to discuss (1) the summary itself – is it accurate?; and (2) responses to the questions.

We think that the following offices/individuals are some of the right

folks, but hope that you can determine what other officials should participate.

OGC – Erik Swenson, Jennifer Wells, Mindy Kairis OSWER – Both the Office of Emergency Management and the Office of Superfund Remediation and Technology Innovation OCSPP OECA – Karin Leff

To the extent possible, we would like to minimize our travel time – if more than one meeting is needed and it is possible to hold the meetings back-to-back, we would really appreciate it!

Please feel free to give me a call with any questions! I appreciate your help!

Janice
